**SUBJECT: A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF  
MONTEREY PARK SUPPORTING EARTH DAY 2015**

## **RECOMMENDATION:**

Recommendations: It is recommended that the City Council:

- (1) Adopt a Resolution supporting Earth Day 2015; and
- (2) Take such additional, related, action that may be desirable.

## **EXECUTIVE SUMMARY**

Earth Day is an annual event, celebrated on April 22, on which day events worldwide are held to demonstrate support for environmental protection. It was first celebrated in 1970, and is now coordinated globally by the Earth Day Network and celebrated in more than 192 countries each year. Earth Day Network's year-round mission is to broaden, diversify and activate the environmental movement worldwide, through a combination of education, public policy, and consumer campaigns. Residents can reduce their imprint on the Earth by supporting environmental education, reducing their energy consumption and being aware of the impacts our actions affects our planet for generations to come.

## **BACKGROUND:**

In 1969 at a UNESCO Conference in San Francisco, peace activist John McConnell proposed a day to honor the Earth and the concept of peace, to first be celebrated on March 21, 1970, the first day of spring in the northern hemisphere. This day of nature's balance state was later sanctioned in a Proclamation written by McConnell and signed by Secretary General U. Thant at the United Nations. A month later, a separate Earth Day was founded by United States Senator Gaylord Nelson as an environmental teach-in first held on April 22, 1970. Senator Nelson was later awarded the Presidential Medal of Freedom Award in recognition of his work. While this April 22 Earth Day was focused on the United States, an organization launched by Denis Hayes, who was the original national coordinator in 1970, took it international in 1990 and organized events in 141 nations.

Senator Nelson chose the date in order to maximize participation from college students for what he called an "environmental teach-in." He thought the week of April 19-25 was

the best as it did not fall during exams or spring breaks and did not conflict with religious holidays such as Easter or Passover plus it was late enough in spring to have decent weather. More students were likely to be in class, and there would be less competition with other mid-week events so he chose Wednesday, April 22, which is also the anniversary of the birth of renowned conservationist John Muir.

In 2014, President Obama addressed the New York City Climate Summit and stated "Let's make 2015 the year when our world leaders pay attention and answer our call." He was referring to the recognition of disastrous implications of climate change and how we need to deal with the issues now to protect the future of the environment.

Nearly half of all greenhouse gas emissions in the United States are generated from the energy we use to power our homes and cars. There are a lot we can do as individuals to reduce our imprint. We can wash laundry in cold water, utilizing the machines during non-peak hours; riding a bike instead of driving, car-pooling, or public transportation; volunteering with a community clean-up, recycle and avoid plastics by using reusable items such as shopping bags; larger businesses can plant trees, complete large-scale light bulb changes, and workplace renewable energy retrofits.
